National Flood Insurance Program Mapping

Fording Flood Waters July 30, 2019

National Flood Insurance Program

Created by Congress in 1968 to reduce the loss of property and life by lessening the impact of flooding disasters.

Mission of the NFIP

- To assure the availability of flood insurance in participating communities.
- Minimize the future risk to flooding and the personal and national impact flooding creates.

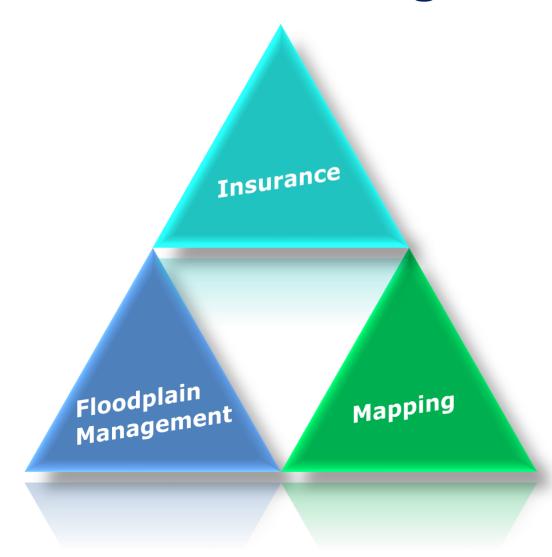

National Flood Insurance Program

- Identifying and Mapping Flood Risk
 - Inform the public and stakeholders of the risk.
 - Drive Federal/State/Local planning decisions.
 - Basis for insurance requirements.
- Floodplain Management
 - To minimize future development to the flood risk through land use regulations.
 - Encourage mitigation of existing structures.
- Flood Insurance
 - Provide financial resiliency
 - Took burden off of taxpayer for large scale disasters.

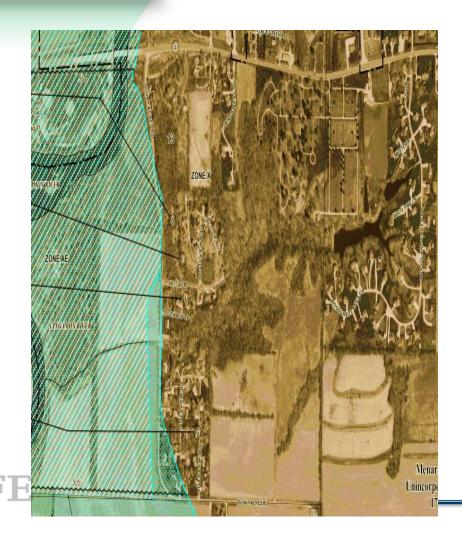

National Flood Insurance Program

Flood Insurance Rate Maps

- Delineates the 1%-annual-chance-floodplain and floodway
- Communities adopt maps as part of floodplain management regulations
- Lenders and Insurance
 Companies use maps to identify risk

 Contains technical data of the studies used to make the Flood Insurance Rate Map

MENARD COUNTY, ILLINOIS AND INCORPORATED AREAS

COMMUNITY NAME	COMMUNITY			ATE.
14THENS, CITY OF	171259		4	
GREENVIEW, VILLAGE OF	170754			
MENURD COUNTY	170909		لمر	41-1, /t./^\l
(UNINCORPORATED AREAS)			1	
OMFORD, VILLAGE OF	170892			(-V,Y-)
PETERSBURG, CITY OF	170906		1	
TALLULA, VILLAGE OF	170909		\	
NO SPECIAL FLOOD HAZARD A	RELIS IDENTIFIED		Menard County	
		May 4, 2009		W-3

Increasing Resilience Together

Deliver **High-Quality Risk Data**

- Understandable Flood Maps
- Credible data-reliable. accurate, watershed-based
- Illustrations of possible Flood Depths
- Usable Flood Risk Assessments

Increase Awareness of Flood Risk

- Tools to understand how flood risk has changed
- · Continuous engagement with communities
- Enable communities to communicate flood risk to constituents

Promote Community Mitigation Action

- Support that allows communities to identify risks and promote:
- Community realiency
- Sustainability
- Reduced need for federal disaster assistance

MITIGATION PLANNING

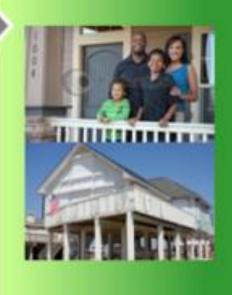

Enhance delivery of Risk MAP Products

Collaborate across all levels of government

Reduce Risk to Lives and Property

YEAR 1

1

PRE-DISCOVERY

FEMA works with the State, community, and tribes to understand needs, resources, and capabilities to support the community in risk reduction and resilience efforts.

Population Growth & Development

Changing Conditions

NEW REGULATORY FLOOD MAP NOT NEEDED

Better

Science

If the data and research does not support the need for a Regulatory Flood Map project, the final Discovery Report is updated to reflect that decision. In lieu of a Flood Map, State, local and tribal officials may request technical assistance or risk and vulnerability assessments to support risk reduction.

Move on to Data Collection and Analysis

DISCOVERY MEETING

FEMA and the State meet in-person with communities and tribes to gather information on their perspective about local natural hazards and their risk. This information is used to prioritize future mapping, risk assessment, and mitigation planning assistance.

Stakeholder Coordination

Discovery Meeting

Data Analysis

Post Meeting Coordination & Project Scope Development

?

Move on to Data Collection and Analysis for new regulatory flood study

YEAR 2-3

Draft

Regulatory Flood Map

DATA COLLECTION AND ANALYSIS

Funding secured, local multi-hazard data collected, and quarterly updates distributed.

FLOOD RISK REVIEW MEETING

The purpose of this meeting is to address technical issues on FEMA's flood mapping, as well as areas that have been added or removed to the floodplain, and developed risk assessments.

YEAR 4-5

Prelim Map Released

ed 5

Preli Map Mppeal Period Begins

Preli Map

Appeal
Period Ends

Letter of Final Determination

CCO MEETING

A meeting with community officials that determines how they want to communicate flood risk and regulatory changes to constituents.

PUBLIC MEETING

The community hosts an open house-style public meeting with assistance from FEMA. The public learns the results of the updated regulatory flood maps, as well as the appeal period and map adoption timelines. The meeting also highlights local multi-hazard risks and resources available from the state, FEMA, and other partners to reduce risk.

7 RESILIENCE MEETING

FEMA, state, local and tribal officials, and subject matter experts work with the community to identify and review resilience strategies, planning options, and potential actions to reduce risk.

Upcoming Wisconsin Project Milestones

- Door, Oconto, Brown Counties
 - Preliminary Releases Fall 2019
 - CCO/Public Open House Meetings Late Fall/Early Winter 2019
- Kewaunee, Marinette
 - Preliminary Releases Spring 2021
 - CCO/Public Open House Meetings Late Spring/Early Summer 2021

Letters of Map Change

- Letter of Map Amendment (LOMA)
 - Natural ground elevations higher than BFE
- Letter of Map Revision based on Fill (LOMR-F)
 - Placed fill to raise site above BFE outside of the Floodway or Coastal Zone
- Conditional Letter of Map Revision (CLOMR)
 - FEMAs official comment on a proposed project
 - Required when work in the floodway causes a rise to the Base Flood Elevation
- Letter of Map Revision
 - Levee's, Stream Relocations, New Hydrology & Hydraulics,
 Floodway Encroachments
